

ScopeMate Roadmap

Phase 1

Homeowner MVP

Build:

- Authentication
- Project creation
- AI scope generation
- Scope editing
- Share links

Success:

Homeowner can create and share a project.

Phase 2

Completeness + Photos

Build:

- Photo uploads
- Completeness score
- Smart follow-up questions
- Smart dimension questions

Rules:

Never require measurements.

Allow:

- Small
- Medium
- Large
- Not Sure

Future:

AI photo analysis.

Phase 3

Contractor Collaboration

Build:

- Contractor invitations
- Contractor review mode
- Contractor scope suggestions
- Homeowner approval workflow

Success:

Contractors improve scope before pricing.

Phase 4

Cost Expectations

Add planning ranges.

Tiers:

Essential

Functional materials.

Elevated

Better finishes.

Signature

Premium finishes.

Never show exact pricing.

Phase 5

Estimate Builder

Contractor can:

- Generate draft estimate

- Edit line items
- Submit proposal

AI assists but never owns final pricing.

Phase 6

Contractor Pro

Features:

- Saved rates
- Saved templates
- Proposal templates
- Bid history

Subscription product.

Phase 7

Marketplace

Homeowners request bids.

Contractors receive qualified leads.

Optional future business model.
